

# **BEING REMEMBERED**

**Dwight P. Isebia**

If you want to be remembered  
after death, you'd better die  
at an improbable place on an  
improbable time and in a way  
generally considered to be  
too improbable to believe:

But the best way is to fake  
the departure and not to die at all,  
to keep on going, for all to recall  
more good deeds, still being done,  
though you're deemed to be gone
